Quality Assurance Process  
Final Report  
10<sup>th</sup> February 2020**

Dear Sarah,

Further to your recent discussions with Caroline Latta in her capacity as 'Adviser' to this consultation, I have been in regular contact with her in relation to the progress made to date.

I have signed off the Final Report (Gateway 6) stage of the Quality Assurance Process and you may now make this milestone public.

A certificate indicating that '*best practice*' has been achieved and will be prepared. We can then discuss how you would like this to be presented.

Best regards,
